## Functional Medicine and Nutrition Informed Consent

BioSet/ Nutritional Response Testing (NRT) is an alternative non-invasive technique that is used to eliminate food and environmental sensitivities through the evaluation of the electromagnetic energy flow through the body. I have chosen to be tested to determine possible undesirable reactions to various substances that are natural constituents of my diet, environment or body chemistry. I understand that the testing procedure to be used is not generally employed by the majority of physicians for the purpose. I understand that this technique is not a cure all, but one of many different health care options available to help regain my health.

### RISK/ SIDE EFFECTS

Because BioSet/ Nutritional Response Testing (NRT) is a non-invasive technique nothing is placed inside the body. Therefore, the risk of side effects is minimal. However, as with any form of treatment there may be unpleasant side effects during and after treatment. These side effects may include any of the following: fatigue, digestive upset, headache, insomnia, and restlessness. Most of these symptoms are short lived and will subside in a couple of days. If the symptoms last more than 48 hours please contact the office. Because BioSet is non-invasive, we are not aware of any case of anaphylactic reaction, however, although rare, anaphylaxis may occur, in some cases.

### TREATMENT ALTERNATIVES

I understand BioSet/ Nutritional Response Testing (NRT) is not a traditional form of treatment for patient sensitivity. Traditional forms of treatment include but are not limited to the following: avoidance of allergen, traditional allergy injections performed by medical allergist, antihistamines and a rotation diet type.

I understand the above information and have been provided with the opportunity to ask pertinent questions I have regarding the testing and treatment program.

- **Adequate notice is needed if you cannot keep your appointment. Unexpected events can occur resulting in the need to change your appointment, however, at least 48 hours notice is required to cancel/change a new patient appointment and 24 hours notice is required for all other appointments. Failure to provide adequate notice, as well as multiple cancelations may result in a \$55.00 charge for standard appointments and \$90.00 for New Patient Appointments to your account. These charges are the patient's responsibility, not your insurance company and will be billed to the credit card we have on file if proper notice is not given.**

We emphasize that our relationship is with you the patient, not with your insurance company. It is your responsibility to know your insurance policy details and requirements.

I have read and I understand this financial responsibility form; my signature below indicates my agreement to comply, and that I agree to undergo the tests recommended by my provider.
